(2) For example, changes in payment schedule (except change of monthly loan repayment date), collateral composition, loan issuance conditions, loan currency, etc.
In case the interest rate under the agreement is fixed and its validity is terminated as a result of changing the terms and conditions of the agreement, then an additional fee is applied which is equal to the early repayment fee applied to loans with fixed interest rate (see "Early full or partial loan repayment if interest rate is fixed"). In such cases, the calculation of the fee is based on the outstanding loan amount but not on the pre-paid loan amount. For the purpose of application of this fee the validity of the fixed interest rate is considered to be terminated in the following cases:

- the fixed interest rate is changed into the interest rate changed on a 3, 6 or 12 month basis;
- the fixed interest rate is changed into a lower fixed interest rate;
- the loan currency is changed;
- the effective period of the fixed interest rate is shortened;
- the loan amount provided by the agreement is reduced.

(3) If the early repayment of the loan takes place at the same time as the reduction of the repayment term, resulting in no increase in the monthly payment, no commission fee is charged.
(4) In case of complex amendment up to 0.2% of loan balance.
(5) Extension of loan issuance up to 90 days at the customer's request.
(6) The fee is calculated as compensation for potential costs of the Bank directly linked to the early repayment. The fee is calculated according to the formula: $I = (\text{ratio } K * P)$,
where I – early repayment fee;
P – loan amount being repaid early;
Ratio K – value calculated by the Bank which depends on the financial market interest rates change, the rest of the period to a fixed rate expiry and the final repayment date.
